Outlook for Coal Industry is Brighter

Committee of Privy Council Passes Minute Sanctioning Freight Rate Subvention

Action may have been slow, but at last the coal industry has been granted a subvention of freight rates which may help in extending the market for Alberta coal. It is over two years since efforts were first put forth, and to the credit of the Bennett government definite aid in freight rates for a period of two years has been granted.

On May 30 the governor general

approved the government's action, following representation from the minister of mines that a potential market of considerable importance exists in the province of Ontario lying west of Sioux Lookout and Fort Frances for western Canadian coals. Under existing freight rates Alberta coals were placed at a disadvantage in competing with coals imported from the United States.

All coals shipped from Alberta to Manitoba will be assisted by a reduction of one seventh of a cent per ton mile from the existing freight rate, and coal shipped to those points in Ontario west of Sioux Lookout and Fort Frances will be granted a reduction of one third of a cent per ton mile.

Railroads will also enjoy the benefit of the reduced rate on increased tonnage of the average consumption for the past three years. The subvention period is to be effective till June 30, 1933.

Mr. Whiteside, general manager of International Coal Co., states this is the most encouraging action yet from the government, following the lengthy negotiations which have been carried on to extend the market, and that coal from the Crows Nest Pass and other Alberta fields will have a chance to compete with American imports in the territories governed by the assisted freight rate.

Carbon Paper at \$3.00 per box of 100 sheets, or six sheets for 25c at The Journal office. Discount for larger quantities. Typewriter ribbons per dozen \$9.00, or 75c and \$1.00 for single ribbons.

Boards of Trade to Meet at Waterton June 17th

Several From Coleman Will Accept Invitation to Attend Luncheon in Prince of Wales Hotel

E. Haug, president of Waterton Lakes Park Board of Trade, extends an invitation to Coleman Board of Trade to attend their annual luncheon in the Prince of Wales hotel on Wednesday, June 17, at 7 p.m. It is expected that practically every board throughout southern Alberta will be represented, and Mr. Haug states that these gatherings have immense value in bringing board of trade organizations closer together.

He states he would be glad to have Coleman represented by as many as possible, and advise him as early as possible the number who will attend.

Coleman members who would like to attend are asked to notify W. L. Rippon at the Bank of Commerce as early as possible, or The Journal office, so that arrangements may be made for transportation. The suggestion is made that this would be a splendid way to spend the weekly half holiday, leaving here at 1:30 o'clock.

Power of The Press

The power of the press was fully demonstrated in Cranbrook last Saturday when the streets and stores were crowded with shoppers, following the intensive advertising campaign by some of the business firms. Hundreds of dollars must have come out of hiding and gone into circulation. At times there seemed to be a mad rush for bargains, and portions of Baker street looked as though a carnival of some sort was in progress.—Cranbrook Courier.

A Splendid Publication

The Canadian Geographical Journal published in Montreal, is a splendid addition to Canadian publications, and should be accorded support by Canadians. The current issue for June contains a splendid article on the Peace River country by John M. Imrie, managing editor of the Edmonton Journal, also an article on Sir Hubert Wilkins, Arctic and Antarctic explorer, whose latest venture is to penetrate the Polar seas in a submarine. Membership in the Canadian Geographical Society is \$3.00 per year, which entitles those subscribing to the monthly magazine. It is a publication which all who can afford should have, for it will make a most useful reference work on exploration and geographical work in Canada.

ST. ALBAN'S CHURCH

Next Sunday, second after Trinity, services: 9:30 a.m. Sunday school; 11 a.m. morning prayer; 1:30 p.m. Bible class.

Miss Catherine DeCocco returned on Saturday from a ten month holiday in Northern Italy, where she was born, having left there when two years old, coming with her parents, Mr. and Mrs. Joe DeCocco, to Coleman. She returned via Cherbourg, coming to Quebec on the new O.P.R. liner, "Empress of Britain." She brought home an interesting souvenir in the shape of a postcard, autographed by Douglas Fairbanks, famous movie star, who with his wife, Mary Pickford, were passengers on the boat. She visited several of the large cities in Italy, and spent two days in Paris on her return trip. Altogether she had a most delightful experience during her travels.

Homing Pigeons Make Good Time From Brady

Coleman Homing Society's pigeon flight on Sunday was from Brady, Montana, air line distance of 165 miles. Half a sack of flour was the prize to the owner of the winning bird, Jack Sudworth, doated by J. Rushton.

Time of birds as follows:

	yards per minute
J. Sudworth	999 7
J. Anderson	998 8
W. Pryde	998 0
C. Makin	997 0
W. Roughhead	996 7
A. Dewar	996 0
J. Clae	995 0

52 birds took part, 48 of which returned the day they were released. They were released at 6 a.m., and the first bird was in Coleman at 10:52, the others named above arriving before 11 a.m. Four birds are still missing, possibly attacked by hawks or shot at.

Sports News

Football

Coleman and Bellevue will play a match in the Crows Nest league football series on Saturday at 6:30 p.m., which promises to be a keenly contested game. The locals have a strong line up this season, and have hopes of winning the league championship. Bellevue, Hillcrest, Pincher and Coleman comprise the league. George Ford is secretary of Coleman team.

Baseball

Coleman and Blairmore played home and home games this week, Coleman winning both games, the first by 14-2, and the second 10-7. On Monday at Blairmore, Coleman again defeated Blairmore by 19-10. Coleman's line up includes L. Richards catcher, J. Kapalka pitcher, J. Atkinson first base, Bill Fraser second, J. Joyce third, R. Pattinson s.s., E. Emmerson r.f., V. Lilya centre, G. Jenkins left field.

13-12 was the score in an exciting baseball game last evening, Coleman winning against Michel by the odd run. Joe Kapalka, with Atkinson as relief for two innings, pitched for Coleman. A large number were out to give the boys a hand.

Tennis

Tennis players are steadily practicing in preparation for the annual tournament of the Crows Nest Pass Lawn Tennis Association, to be played on Coleman courts on July 4-5. Clubs taking part will include from Cranbrook to Pincher Creek. R. F. Barnes is secretary of the tournament committee.

Local News

Fauville's market garden at the rear of their store on Sixth street has already placed early vegetables on the market.

Ratepayers are reminded that Thursday, June 25, two weeks from to-day, is the time limit for paying taxes to earn the discount of 10 per cent. This is a saving worth taking advantage of. Make it a point to pay by 4 p.m. on that date.

The famous Celtic football team, the pride and glory of Bill Bell, of the Grand Union, has not been living up to its reputation. Up till Saturday last the fans were greatly disappointed owing to their having lost two games to United States teams. But they may retrieve their prestige before the return to the old country. Possibly playing in a dry country affected them.

Local News

A. M. Morrison was a business visitor to Calgary this week.

Mrs. McAnley of Saskatoon is visiting her parents, Mr. and Mrs. A. Beck, at Star Creek ranch.

In Flumerfelt park last Saturday afternoon a pleasant party was noticed. Two mothers and their families had forsaken their homes for a few hours and were enjoying their meals in the open air. This park with very little expense could be made much more attractive to relieve the tedium of the summer months.

Robert Penman is the official time keeper for the pigeon flights of Coleman Homing Society. Arrivals of birds are reported at the Grand Union hotel. Excitement is tense as the owners of birds come sprinting in and some of them will qualify as experts in the 100 yards dash if these flights keep up during the summer.

Last Saturday afternoon was so bright and summer-like that the streets were enlivened by young ladies appearing in their summer finery of bright colors. The tennis courts were a favorite rendezvous, while at the United church club room the juniors were having a strawberry tea, which was patronized by quite a number of ladies.

You've got to get up in the morning to get business. And people of Coleman want The Journal for the local news and advice. Local news paper advertising is without question the most effective above all other forms, and denotes energy, progress and vision. As methods are attracted to the light, so are people to stores that advertise with unfailing regularity.

Local Union Elected Officers on Sunday

Andrew Dow New President at John Stokuluk Secretary—Pit Committees Appointed

Election of committees and officers of the local unit of the Mine Workers Union of Canada on June 7 resulted as follows:

Hospital board, from International mine workers: J. Hadley, R. Sudworth, G. Evans, W. Kuzik; McGillivray mine, S. Andros, J. Lonsbury, Archie McCulloch.

Pit committee for International, J. Yates, J. Stokuluk, W. Roughhead, Fred Cox; McGillivray mine, E. Ukrainitz, J. Lonsbury, J. P. Nixon, A. Dow.

Dave Gillespie, for many years capable secretary of the local, and Wm. Hayson, president, both of whom have been strong leaders in the cause of Labor in the Crows Nest Pass, would not stand for reelection. The former tendered his resignation some weeks ago, but consented to fill out the term till a successor was appointed.

Both have been the target for unfair criticism and abuse in the paper published by the Communist party, because they would not approve of their tactics in trying to obtain control of the union.

Andrew Dow was elected president; R. Sudworth vice-president; John Stokuluk, secretary; S. Danjahn and G. Evans, auditors.

The elections created considerable local interest, and spirited discussion took place at the meeting.

Insurance Against Depression

A newspaper published on the Pacific Coast prints the following note received by it from a worker in lumber camps: "You need not worry about me. I have worked many years in the logging camps, saved my earnings. Now, during the depression, I am able to get along on three meals a day and a good place to sleep. I am a naturalized citizen. I will vote for the things that make my adopted country a better place to live in."

Commenting on this statement, a magazine writer says it would be difficult to condense the principles of sound economics and good citizenship into smaller space. Let us analyze it a bit.

In the years when work was plentiful this industrious woodsman labored and saved, for his common sense told him that fat years and lean years had alternated throughout the known history of man. They did in Egypt in the days of Joseph, when amid the scorching of the masses he stored up grain during seven fat years as insurance against the succeeding seven lean years. Ordinary prudence told this Pacific Coast woodsman that in storing up from the surplus of the fat years he, too, would be able to meet the deficiency of the lean ones.

This woodsman had nothing but his labor to sell, so he sold it at a profit when the market was brisk and saved the profit to provide for his needs when the market should be dull. And "depression" finds him living comfortably and free from worry. He can afford to wait in philosophy patience for the sure advent of another period of fat years.

And, after all, who of us is really differently situated than is this woodsman? What, in the final analysis, has any person to sell but his own labor? And having sold that labor in times when it is in demand and well paid for, whether in wages, or profitable production from farms, or turnover in business, it surely is the sane and sensible policy, in fact the duty, of the laborer to "save" against the day when there comes a decline in demand for his services and a resultant decline or stoppage in current income or profit.

Everybody but the wholly improvident and thoughtless insure themselves today against sickness, accident, death and old age. They insure their homes, businesses and belongings against possible loss by fire or other catastrophe. They regard these steps as not only wise, but a duty they owe to themselves and their families. In like manner, is it not the part of wisdom, and a duty, in the fat years of earning power to "save" against the lean years which the whole history of man teaches us will inevitably come?

In all the volumes, and essays, and speeches, and editorials, and articles that have been written or spoken on economic topics, in all the speculations as to causes and cures for the present "depression," can any one find a surer specific for economic comfort and independence than that offered by this hard-headed, straight-thinking woodsman? Out of the abundant fat years lay up a store to bridge the shortage of the lean ones. It is simply the old, classic preventive of industry and Thrift properly balanced. And whenever it has been applied it has worked.

Think Salaries Too Low

Civil Service Federation Holds Wages Paid Are Inadequate

Holding that the civil service salaries are inadequate, the Civil Service Federation of Canada, at the opening session of its 14th national convention in Ottawa, considered the report of its executive committee outlining plans for continued efforts to secure more adequate pay throughout the government service. The executive reported active preparation of the case for the service for higher pay to be laid before the Beatty Royal Commission.

When a man has nothing to do, he always attends to it personally.

Canada's Automobile Output Is Higher

At End Of April Production Showed Substantial Increase

Automobile production shot upward in Canada during April. With a total output of 17,159 cars, the daily average of 572 cars was 37 per cent. higher than in March, although only about one-half the average during April 1930.

The index number of production computed by the Dominion Bureau of Statistics, which started the new year at 60 per cent. below normal, was at the end of April only 26 per cent. below normal.

Believed In Advertising
Over in England, in the village cemetery of Dagenham, Essex, stands a tombstone on which this bit of advertising copy appears:

"Here lies John Steere, who when living brewed good beer. Turn to the right, go down the hill; his son keeps up the business still."

A New Field For The Alpinist

The great attraction of Jasper National Park in Alberta to alpine climbers is no doubt the opportunity it affords for first ascents. There are many important peaks still unexplored and even unnamed and whole regions waiting to be explored.

Inter-Provincial Traffic Council

Saskatoon Board Of Trade Votes Opposition To Proposed Plan

Opposition to the proposed prairie provinces inter-provincial traffic council was expressed at an executive meeting of the Saskatoon Board of Trade. The opinion was expressed that it would not be in the best interests of Saskatoon and Saskatchewan to enter this association.

It was stated that Saskatchewan was in a peculiar position in connection with freight and express rates, and that at present there was a Saskatchewan traffic council which was functioning in a satisfactory manner.

J. M. Stevenson, K.C., said Manitoba and Alberta were in far more favorable situation as regards rates than this province. The one had the rate from Vancouver, while the other had the special rate from the head of the lakes.

He said that owing to the geographical situation of the province, sandwiched between two provinces which enjoyed special facilities, it would militate against Saskatchewan receiving concessions. He said that if a move were made for a reduction in rates for Saskatchewan, the other provinces, if the association were formed, would oppose any concession which would give Saskatchewan any benefit.

He also expressed the opinion that Manitoba and Alberta should proceed to organize traffic councils to operate separately and that joint action could be taken on specific problems where there was common ground.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Winnipeg Building Permits

Winnipeg building permits for the month of April total \$1,049,350, as compared with \$836,150 for April, 1930. The total of building permits for Greater Winnipeg to date show an increase of \$90,000 over 1930.

It is believed that the Virgin Islands may establish an industry of raising plants used as insecticide materials, which are now imported at high cost from abroad.

Borden's Chocolate Malted Milk is rich and creamy, with a real MALT flavor that puts a delicious touch on any meal. Buy a tin of Borden's Chocolate Malted Milk today—your dealer has it in pound and half pound sizes. *The Borden Co. Limited*

Credit Goes To Weir

Has Made It Possible To Retain Federal Tree Nurseries

The federal tree nurseries at Indian Head and Sutherland, Saskatchewan, from where trees have been distributed to prairie farmers free of charge, are to be carried on by the federal government. This service was cut out of the estimates tabled in parliament a few weeks ago, and would have been completely abandoned on July 31, had the government not reconsidered the matter and reversed its first decision.

Not an additional dollar is to be voted for their upkeep, but Mr. Weir will cut down on other expenses within his department to obtain the funds necessary for the work. The decision, favorable to the nurseries, was reached only after Mr. Weir had put the matter before Mr. Bennett on two occasions. On the first he was refused, on the second he obtained Mr. Bennett's consent. The announcement followed a question put to the government by Hon. W. R. Motherwell.—By Grant Dexter.

Probe Wheat Board

Will Investigate Sale Of Grain By Wheat Board Of 1917 and 1918

The standing committee on agriculture will, in addition to its other duties, examine into the documents brought down in the House of Commons recently in connection with the 11-years' old correspondence between the Wheat Board, Farmer, of Brissy, Sask., and Sir George E. Foster, when the latter was Minister of Trade and Commerce. The correspondence deals with Mr. Whiteside's complaint respecting the sale by the wheat board of the grain crops of 1917 and 1918.

In these letters Mr. Whiteside expressed the current belief among the western farmers that the government had made a large sum of money from the sale of the crops.

On a motion of Hon. H. H. Stevens, Minister of Trade and Commerce, authority was given to the agricultural committee to enquire into this.

Recipes For This Week

(By Betty Barclay)

Dainty, delicious and healthful desserts do not necessarily call for great expenditure of money. Here are two inexpensive dishes that will please the most fastidious:

FIG AND RICE CONDE

1 cup rice.
2 cups milk.
1/2 cup sugar.
1 teaspoon salt.
1 egg.
4 figs.

Cook rice, milk, sugar and salt in double-boiler until rice is tender. Add beaten egg and chopped figs. Remove from fire and flavor. Turn into small molds which have been buttered and dredged with sugar. Set away in warm place until firm. Chill. Unmold when ready to serve, surround with apricot sauce, garnish with whipped cream topped with a fig.

BREAKFAST COCKTAIL

(Serves 1)

1 egg yolk.
2 oranges, juice of.
1 pinch of salt.
1 teaspoon honey or sugar to taste.

Beat together and drink every morning.

Persian Balm. Cool and refreshing. Soothing and protective. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always results in the highest expression of beauty.

New Catapult Tested

With a deafening roar of compressed-air motors developing 4,000 horsepower, which were utilized to give a sudden pull on a long tow rope, one of Great Britain's largest bombing planes, weighing almost nine tons, was literally hurled into the air in the space of a few yards at Farnborough Experimental Air Field. The new catapult will enable long-distance planes, heavily laden with bombs, to rise from small aerodromes or from the decks of naval carriers.

Uniform Signs For Europe

Roadside warning signs in all Europe will be uniform if the countries accept the system adopted at the European Conference on Road Traffic which recently met at Geneva. Danger signs will be triangular, stop signs circular, and information signs rectangular. Should all the countries adopt it the change will mean the scrapping of thousands of signs now in use.

Made Interesting Flight

Professor Believes It Will Revolutionize Theories About Stratosphere

The London Daily Express, in a telephone interview with Professor Auguste Piccard, "stratosphere" balloonist, quotes him as saying that the results of his flight "are likely to revolutionize all previous theories concerning the stratosphere."

"The flight proved that the stratosphere is navigable," the Professor is quoted as having said, "and that man with modern technical methods will be able to master its low pressure and its cold."

Recovered from their perilous thrust into the upper reaches of the sky, Dr. Auguste Piccard has started compiling his scientific data, while Charles Kipfer, his assistant, took a three-hour climb to recover their balloon from the glacier in which it came to rest.

Dr. Piccard said, in conversation with Austrian newspapermen, that the stratosphere, which he claimed to have penetrated in an ascent of more than 50,000 feet, was the only practicable element for long distance aviation.

"This can be done, however," he said, "only if the cabins are as air tight as our gondola was."

Information received at Innsbruck, Austria, from Professor Auguste Piccard said that he and his companion, Charles Kipfer, suffered greatly from thirst during their balloon flight into the stratosphere.

They were forced to scrape the frozen moisture from their breath off the walls of the aluminum cage, the report said, and to melt and drink it.

"The fact that we carried a double supply of oxygen saved our lives," he said. "On landing we found there was left only sufficient for one hour more."

A Kennedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas Eclectic Oil offers a simple remedy. A few drops upon a piece of lint or cotton and placed in the ear will do much in relieving pain.

Believes Jazz Age Dying

F. Scott Fitzgerald, the novelist who gave the jazz age its name and "discovered" the flapper, believes that the age of jazz has ended, according to a letter received from him by his publishers, Scribners. Fitzgerald said the jazz age lasted ten years from the suppression of the May Day riots in 1919 to the stock market crash in 1929.

The hippopotamus is one of the largest animals, often weighing three or more tons.

FUTURES TRADING STAMP FINDS IS HELP TO FARMER

Ottawa, Ont.—The farmer receives a higher price for his grain as a result of the present system of futures trading. This is the chief conclusion of the government commission headed by Sir Josiah Stamp, British economist, whose report was tabled in the House of Commons.

While recommending the retention of futures trading as the best method of adding security to the producer's position, the commission believes public confidence in grain trading would be increased and suspicions of producers abated if a degree of government supervision were employed.

The report deals exhaustively with the many phases of grain trading and follows examination of over 50 witnesses in Winnipeg, Regina, Calgary, Minneapolis and Chicago. Hearings began on April 13 in Winnipeg, and work of the commission was concluded two weeks later in New York. Besides Sir Josiah Stamp, other members of the commission were Chief Justice J. T. Brown, of Regina, chosen by the prairie governments to represent the farmers, and W. Sanford Evans of Winnipeg, representing the grain trade.

The commission urges caution in giving too great effect to the periods of abnormal fluctuations such as in 1920-21 and 1929-31 and base their conclusions on normal times.

Dealing specifically with the reference to the commission—"to inquire into and report upon what effect, if any, the dealing in grain futures has upon the price received by the producer"—the findings may be summarized as follows:

There is no effect upon the long period major trends of price, which must find their position relative to the price of other commodities in the long run.

Major fluctuations in price from year to year and quarter to quarter are lessened "to make the producer's position more stable and secure." Minor day to day oscillations are increased, but these tend to level off major fluctuations and benefit the producer. Also gamblers lose money in such a way as to increase the producer's price.

Apart from the fluctuations, the effect is "less certain, but with a high degree of probability, to increase the average price received in the long run by the producer, to an indeterminate but appreciable extent." If Canada were to abandon futures trading while the rest of the world retained it, there would be a disadvantage for Canadian wheat "which would definitely fall upon the producer in a lower price."

Willing To Reciprocate

New Zealand Would Negotiate Trade With Canada

Wellington, N.Z.—Prime Minister G. W. Forbes made it clear that New Zealand was still willing to negotiate with Canada regarding inter-domain trade, but he expressed disappointment with Canada's failure to heed New Zealand's representations regarding the Canadian duties on imported butter.

The prime minister said he hoped Canada would agree to end her minister of trade to New Zealand to negotiate a new trade treaty. New Zealand had been forced to show a strong hand—in placing Canadian imports on the general tariff scale—in view of Canada's "complete failure to listen to representations regarding the butter duty," he said.

Income Tax Changes

Changes With Two Exceptions Banned On Next Year's Taxes

Ottawa, Ont.—All the income tax changes brought down in the budget are applicable to next year's taxes assessed on this year's income, with two exceptions, it was explained by the department of National Revenue. In the case of the increase in the rate from eight to ten per cent. on the income for corporations and joint stock companies, the additional two per cent. will have to be paid on the returns already in, based on last year's income. The other exception is a tax of two per cent. collected at source on dividends payable to non-resident shareholders. This comes into force on July 1 next.

Chinese Refugees Suffering
Hankow, China.—Large numbers of refugees seeking to escape roving bands of Communists and bandits in southwestern China are arriving in Suifu province, bringing tales of terror and suffering.

Empress Greeted By Notable Canadians

Governor-General Attends Dinner Given On New C.P.R. Liner

Quebec, Que.—To join with the Prime Minister and many other distinguished citizens of the Dominion, in the general welcome which has been extended to the "Empress of Waters," the Governor-General paid a visit to Quebec and attended a dinner held on the vessel on June 3.

President E. W. Beatty, of the Canadian Pacific Railway, presided over a company numbering some 500 which included, in addition to His Excellency and the Prime Minister, Sir Robert Borden, Gen. Sir Arthur Currie, Hon. Hanford MacNair, United States minister to the Dominion, Sir William Clark, British minister at Ottawa, Hon. E. Lapointe, Lord L. A. Taschereau, Sir Joseph Flavelle, Sir Herbert Holt.

Lord Beatty, commenting on the initial performance of the "Empress of Britain," said the "Empress" had proved herself mistress of the high seas and had entered the new world by one of the greatest and most spectacular highways.

Itinerary Of Air Pageant

Planes On Trans-Canada Tour Leave Hamilton July 1

Kingston, Ont.—Dominion's great trans-Canada air pageant will begin on July 1, when more than 50 planes will leave Hamilton to commence the 7,700-mile tour of Canada, and will find up at the Toronto Canadian National Exhibition, according to official announcement by Marshal M. Foss, publicity and show manager of the air pageant, sponsored by the Canadian Flying Clubs Association.

The official itinerary as announced by Mr. Foss gave dates to which the armada will reach cities in the west as follows: July 7, Minneapolis; July 8, Winnipeg; July 10, Brandon; July 11, show at Winnipeg; July 13, show at Regina; July 14 and 15, Moose Jaw; July 16, Medicine Hat; July 17 and 18, Calgary; July 19, Lethbridge; July 20, Vancouver via Grand Forks with show at Vancouver; July 26, Lethbridge; July 28, Edmonton; July 31, Saskatoon via North Battleford; August 1, show at Saskatoon; August 3, show at Winnipeg; August 6 and 7, show at Fort William.

Duty On Magazines

Educational, Religious and Scientific Publications To Be Exempted

Ottawa, Ont.—Officials of the Department of National Revenue will consider each magazine coming into Canada, and decide which shall be exempted from the 15 cents a pound duty which will be imposed under the provisions of the budget. The duty does not come into effect until July 1. The magazines to be exempted as defined by Premier R. B. Bennett will be educational, scientific and religious. The list prepared by the department will be submitted to the cabinet for final acceptance.

Some magazines coming into Canada weigh over a pound per copy, and in some cases, the duty will be more than the present cost of the magazine. With magazines totalling several million copies coming in every year, the taxes from this source should be considerable.

The New Taxes

Postage Increase Comes Into Effect On July First

Ottawa, Ont.—The new taxes imposed by the Bennett budget come into force on the following dates:

New customs tariff effective midnight, June 1.
Sales tax effective midnight, June 1.
Corporation tax effective on income for 1930.
Income tax effective on 1931 incomes.
Income tax on foreign investments in Canada effective July 1.
Postage increase, July 1.
Postal rate on newspapers, July 1.
Stamp tax on cheques, July 1.
Insurance policy tax, October 1.

To Break Deadlock

Negotiations Being Carried On Between Vatican and Italian State

Rome, Italy.—Secret negotiations to break the deadlock between the Holy See and the Italian state in the present crisis is in progress.

Following the closing of Catholic youth clubs by the Italian Government, it was learned from a good source that conversations are being conducted by Cardinal Gasparri, who signed the Lateran treaty and concluded in 1929 with Premier Mussolini.

DEPORTATION BILL IS OPPOSED BY MINISTER

Ottawa, Ont.—A measure preventing the deportation from Canada of persons who have been resident here more than ten years, was "talked out" in the House of Commons. The bill, which came up on second reading, under the sponsorship of J. S. Woodsworth (Labour, Winnipeg North Centre), may possibly be reached again this session.

From Hon. W. A. Gordon, Minister of Immigration and Colonization came a clear and emphatic statement in opposition to the "proposal." The effect of the bill, Mr. Gordon declared, would be to destroy sections of the Immigration Act for the deportation of prohibitory classes, including idiots, imbeciles, insane and feeble-minded persons, diseased persons, people of unsavoury character, and other physically or mentally deficient.

Dealing with "prohibitory classes," Mr. Gordon remarked that migrants who became mental cases in Canada were not cared for by the Dominion Government, but the burden fell upon the municipalities and the provinces. The provinces of Canada had expended millions upon millions of dollars for the care of these people. Ontario, with which Mr. Gordon was most familiar, had invested some thirty-eight million dollars of capital expenditure in institutions to take care of the sick and afflicted at the present time. Canada's neighbor to the south had many thousands of cases with which the Department of Immigration is dealing every day, who, if we let down the bars, would be sent back to Canada, where they have no right to come.

Mr. Gordon emphasized the deportations were only ordered after the fullest inquiry. Many people of a splendid type had come to Canada who were to honor today to this country; but there were some within our boundaries who, under careful selection and the discipline of immigration, never would have been permitted to come into Canada.

A. A. Heaps (Labour, Winnipeg North), who, in the absence of Mr. Woodsworth, moved the second reading, said it was "most unfair" to deport persons from Canada who had been resident here for many years. In recent months many persons, the majority born in Great Britain, had been deported. Some had been here as long as 18 years, had raised families in Canada and, late in life, becoming ill, had become public charges. He believed the 10-year limit suggested in the bill was too long and that five years' residence in Canada would be sufficient. Men and women born outside the British Empire might be naturalized in Canada after five years' residence and escape deportation. This was an injustice to British subjects, he believed.

England-S. Africa Phone Service
Cape Town, S.A.—Wireless telephone service between South Africa and England will be opened shortly, according to an announcement made by Hon. H. W. Sampson, Minister of Posts and Telegraphs in the House of Assembly, recently.

MOUNTAIN PEAKS BECKON ALPINE CLUB

Among the mountain peaks that will beckon to Alpine Club campers this summer are the Tower of Babel (right), reflected in beautiful Moraine Lake; the craggy summits above Lake O'Hara which invite the intrepid (left), and picturesque Eagle's Eyrie (centre), just a step from Prospector's Valley, where camp will be struck. Standing stark against the sun, the Eagle's Eyrie is startlingly like the king of birds, but fashioned in stone, serves merely to provide shade where mountaineers halt to drink tea.

MAY RETIRE

Col. Grant Morden, well known Canadian residing in England, is reported to have decided to retire from his seat in the English House of Commons. At present he is recovering from a serious illness in his home in the British Isles.

Trade With New Zealand

British Columbia Anxious For Consummation Of New Agreement

Victoria, B.C.—"It is important in the interest of our export trade that a new agreement with New Zealand be consummated in the near future," F. C. Brown, chairman of the British Columbia division, said in presenting his report to the convention of the Canadian Manufacturers Association.

New Zealand's action in withdrawing the British preference from Canada, combined with the Canadian budget provision placing a duty on tin plate, would hit the canned salmon industry hard, the speaker said.

Mr. Brown's address forcibly directed the attention of the manufacturers across the Pacific. He was hoping from day to day to see announcement of the conclusion of a new agreement with Australia, which would continue the present preference on paper, fish, and lumber, and extend that on lumber. Since the termination last October, of the agreement with New Zealand, trade with that dominion had fallen off rapidly.

The report of the prairie division, read by Arnold Smith, Winnipeg, said "the courageous manner in which our agricultural population has prepared for another crop should be a very definite corrective to those fatalists who appear to think that our economic fabric is irrevocably damaged." "It is more than likely that the position of our overseas markets for grain and farm produce will steadily improve."

R. J. Hutchings, Calgary, said the farmers were buckling down to putting in a crop at half the price of late years, due to the cost of seed and other elements. The prairies, he declared, were going to maintain their position of growing the best wheat and supplying it to the world markets.

U.S. Debt Increases

Washington, D.C.—After government financials had been discussed by President Hoover and his cabinet the White House announced the national debt would be increased \$500,000,000 for the fiscal year ending June 30, because of falling revenue and increased expenditures.

Grain Shipments For May Were Higher

Larger Quantities Shipped Overseas Than In Previous Months

Fort William, Ont.—Canada's hold on foreign wheat markets remained firm through May; the Dominion shipping larger quantities overseas than in any month for more than a year. Clearances during the last week, according to the weekly report on grain movement by E. J. Ursell, statistician to the Dominion Board of Grain Commissioners, amounted to 6,883,553 bushels and swelled the five-week total to 34,190,796 bushels.

Export Market For Butter

Good Market For Butter and Cheese In Great Britain

Montreal, Que.—Canada will have a good butter and cheese export business with Great Britain this year, according to P. W. McLagan, Montreal butter and cheese exporter, who has just returned from a visit to Great Britain.

There was a place for Canadian butter in England, he declared, and as long as Canadian prices and quality were right, he thought that there would be steady sales throughout the 1931 season.

WILL FIND A WAY TO BUILD TRANS-CANADA HIGHWAY

Ottawa, Ont.—Before long the government hopes to have a satisfactory solution to the problem of building a trans-Canada highway. Hon. R. J. Manion, Minister of Railways and Canals, told the House of Commons it was too soon, he said, to charge the government with failure to keep its election promises.

Dr. Manion was speaking in the debate on the highway started by a Brader-Lib. "Timiskaming (North) on a motion to go into supply.

Neither Mr. Bradette nor Hon. Peter Heenan, former Minister of Labor, had been consistent in their attitude towards the highway, said Dr. Manion. When the Liberal Government had been in power a motion had come before the House urging the government to make grants towards the construction of highways and both Mr. Heenan and Mr. Bradette had voted against it. They were in no position to accuse the present government of breaking its pledges so early in its term of office.

"I did not accuse you of breaking your pledges," said Mr. Heenan. "I merely asked you to fulfill them." "The question of the trans-Canada highway is a very big question. It has not been overlooked. The government has it under consideration and we hope before long to have a satisfactory solution to fulfill them."

The record of the Liberal party had been consistent in matters of grants to provinces, declared Rt. Hon. Mackenzie King, adding it might have resulted in some political losses. When assuming office in 1921, deficits in the treasury were encountered, necessitating economy if the budgets were to be balanced and debt and taxation reduced. In one direction, this was done, namely, by refusing grants and aids to provinces in addition to the subsidies faced at confederation.

"I am not opposed to subsidies to provinces," exclaimed the Liberal leader, "but I am opposed to sums of money being voted by this parliament to the provinces in addition to the regular subsidies." Such extra grants never were contemplated by the fathers of confederation.

"Where will the end be?" asked Mr. King, as he enumerated the grants paid during the past 10 years to the provinces in addition to the regular subsidies. They were for agricultural instruction, to co-ordinate unemployment offices, to encourage highway construction and technical education, combating disease, relieving unemployment; the old age pension scheme. The total was \$57,900,000. During that time, the statutory subsidies paid by the Dominion to the provinces amounted to \$150,000,000. "The principle of the old age pension scheme is thoroughly sound. In order to get the scheme in operation, I was prepared at first to support the principle of grants to the provinces, which, I admit, is unsound."

The time had come, Mr. King repeated, when the federal parliament should vote 100 per cent. of the cost of the pension scheme, and centre administration in Ottawa. In his budget recently, Premier Bennett had continued this "unsound principle" of the federal treasury assuming a portion—75 per cent.—of the scheme.

SAV CONFERENCE AT OTTAWA IS TO BE POSTPONED

London, England.—It was believed in well-informed circles in London that the Imperial economic conference in August at Ottawa would be postponed. The conference was intended to continue the discussions on Empire economic unity inaugurated at the last Imperial meet.

Reasons for belief that postponement would be announced are listed as pending general elections in Australia, New Zealand's economic crisis, South Africa's "reluctance" to send delegates to Ottawa at the present time, India's own pending round-table conference and an apparent division of opinion in the British government on the question of wheat quotas.

Under the heading "The Doomed Conference," the Conservative Evening Standard declared the attitude of the Labor Government indicated nothing substantial would come from the Imperial economic conference if it was held at Ottawa next autumn.

The possibility of closer Imperial economic co-operation depends on Britain's willingness to accept a system of tariffs, the newspaper continued. "Cut that away and there is nothing left. The dearest principle of those who control this government rules out the only possible solution and makes what discussion there may be at Ottawa to a meaningless exchange of words."

Duty On Anthracite Coal

Revenue Of \$1,250,000 Is Expected From This Source

Ottawa, Ont.—The duty of 40 cents a ton on anthracite coal announced in the budget would result in a revenue of a million and a quarter dollars if the purchases of this type of coal from the United States continues at the same rate as last year. In the calendar year 1930, Canada bought from the United States 3,235,032 tons of anthracite.

The duty on bituminous coal has been increased from 50 cents to 75 cents a ton. Canada imported 13,764,563 tons of bituminous coal last year from the United States, but considerable of it came under the drawback which returns to importers using soft coal for smelting purposes 99 per cent. of the duty.

In the last fiscal year Canada imported from the United States 1,156,265 tons of soft coal free of duty. The new tariff this will carry a duty of a dollar per ton.

Plan Flight To Orient

Colonel and Mrs. Lindbergh May Fly To Japan This Summer

New York.—Confirmation from Colonel Charles A. Lindbergh that he and Mrs. Lindbergh will fly to Japan and China was obtained by the Associated Press through an authoritative source in seclusion.

This source stated Colonel Lindbergh had not yet chosen his definite route and that he had not set a time for the start of the flight. It was said merely the flight will be undertaken "some time this summer."

Advocates Day Of Prayer

Would Set Aside One Day To Pray For Rain In Saskatchewan

Prince Albert, Sask.—One day of prayer for rain should be set aside and observed throughout the province, stated Hon. J. F. Bryant, Minister of Public Works for Saskatchewan, in an address here.

He referred to the great lack of moisture for the wheat fields in the province, especially in the south. Mr. Bryant officially opened the field day of the Shorthorn Breeders' Association of Saskatchewan.

Ottawa Honors King George

Ottawa, Ont.—The capital was in holiday dress June 3 in honor of His Majesty King George, who was celebrating his 66th birthday. Parliament Hill was almost deserted, the House of Commons and the Senate having taken a day off. All government departments were closed, as were also schools and business establishments. A royal salute 21 guns boomed out at 12 o'clock noon.

Butter From Australia

Ottawa, Ont.—A total of 1,422,512 pounds of butter were imported into Canada from Australia during the calendar year of 1930 according to a reply given by Hon. H. H. Stevens, Minister of Trade and Commerce. In the month of April this year, butter imports from the commonwealth totalled 168,000 pounds.

TOWN OF COLEMAN

Tax Recovery Act

Notice is hereby given, that, under the provisions of The Tax Recovery Act, 1929, the following lands will be offered for sale, by public auction to be held in the Town Hall, Coleman, Alberta, on Wednesday the 17th day of June, 1931, at the hour of 10.30 a. m.

Lots	Block	Plan
5, 6, 7	H	2446 A.A.
18	"	"
11	J	"
3	"	820 L.
2	7	"
25	9	"
13	11	"
8	22	"

Each parcel will be offered for sale, subject to a reserve bid, and the reservations contained in the existing certificate of title. Terms, cash, unless otherwise arranged.

Redemption may be effected by the payment of all arrears of taxes and costs, at any time prior to sale.

Dated at Coleman, this 20th day of April, 1931.

James Ford,
Secretary-Treasurer

500 sheets of bond writing paper letter size may be purchased at The Journal office, price \$1.15, or \$2.15 for 1,000 sheets.

NOTES AND COMMENTS

Public service is usually lightly regarded by the great majority. A man may work faithfully for many years, and then be "bumped" by the whims and caprices of the people whom he has served. That is why many capable of filling positions of this nature will not accept. They prefer to work for their own interests rather than expend their energy on others who will take all the rewards that may accrue. Often one is inclined to regard talk of the brotherhood of man as pure "bunk." One sees so many examples to the contrary. There is just as much truth as ever in the sentence "Every man for himself and the devil take the hindmost." One does not have to look very far to convince him it is true.

Canadian National Railway expenditures are likely to cause discussion in the House of Commons. Extravagant expenditures are being viewed with concern, and millions are being expended on terminals in Montreal, as well as on hotels in other parts of the Dominion. The public has to foot the bill and though Sir Henry Thornton may be a capable executive, yet his attitude when C. N. R. expenditures are questioned, strikes many people as being too autocratic for a government-owned system. Parliament has a right to be given the information asked for, despite what Sir Henry may think of it.

Homing pigeons are brave and sturdy birds, and man has yet to explain why they can fly for a hundred miles or more after being released, to return to their home lofts. It is a wonderful homing instinct which these birds have. They are performing valuable service in the Royal Canadian Flying Corps as messengers and in the forestry service. Coleman enthusiasts for the past two or three years have shown keen interest in pigeon flights and some remarkable flights have been made by local birds which have been released at distances up to 200 miles from Coleman, and returned to their lofts. Many lives have been saved by carrier pigeons speedy flights, but their achievements are seldom recorded on the front page.

'Tis foolish to preach one thing and not act in accordance. Hypocrisy is quickly seen through, and as the famous showman said, "you may fool some of the people all the time, and all the people some of the time, but you can't fool all of the people all the time."

Very inspiring it was to read of the dedication of the war memorial at Lethbridge on Sunday. The lieutenant-governor spoke truly when he said:

"It must be a tremendous comfort to the bereaved relatives of the men whose names are engraved on this Memorial that after twelve and a half years their memories are still fresh and green in the hearts of their fellow citizens, and I congratulate them, as well as those who are responsible for the erection of this Memorial, on this abiding evidence of the fact that these men are not forgotten."

People at times think there are too many memorials. Yet a memorial in stone is a perpetual reminder and undoubtedly causes all who behold it to reflect on the deeds of those to whose memory it is erected.

There may be luck in winning a sweepstake, but there is no such thing in the world of business. Lucky, others may seem because they progress, but looking behind the screen it will usually be found that what others term luck is the reward of faithful and honest application to one's duties. To succeed you must work systematically.

Some men develop quarrelsome tendencies when they imbibe intoxicating liquor. Others develop an exuberance of good feeling which becomes embarrassing to sober people. On Monday one of the quarrelsome kind threw a glass at another man. Men who have so little control of themselves should not be served with liquor. They are a menace to everyone.

What constitutes an old-timer? To our mind a man should have 50 years residence in any one place to be termed an old-timer. He should have whiskers, chew snuff and sit around the town pump. Of course Pat Burns could never be in that class. Though 75 years old, he is more active and virile than many men of 50. Hard work, a shrewd mind, thrift and industry have made him a power in financial circles. He is an old-timer who though wealthy yet retains popularity among large numbers of western people. His 75th birthday cake will be served to 23,000 people on July 6th.

The man who succeeds is he who continually strives to rise above his environment. The self-satisfied indolent man will remain "as is." Develop initiative to succeed.

Local News

The ice-cream wagon on the streets reminds Londoners of the "hockey-pokey" man of a quarter of a century ago.

Butter is so cheap that a farmer in southern Saskatchewan found it cheaper to grease his machinery with it than to purchase axle grease.

Mrs. J. L. Lonsbury returned from Granum, where she had been visiting her daughter, Mrs. Alex Easton.

Mrs. McKinnon of Kimberley, a former resident of Coleman, was here over the week end visiting several old friends.

A broken water main on Sixth street on Tuesday necessitated the shutting off of water for the entire day. The cause of the break was not determined.

The copious rains of the past two weeks have greatly aided the gardens, and flowers and vegetables have been growing almost as fast as sunflowers.

Jimmy Taylor was entertaining on Monday by reciting some of Burns' poems. Jimmy has the correct Scottish burr which cannot be imitated successfully.

June 15th issue of Maclean's Magazine has a very interesting article on carrier pigeons which will especially appeal to the members of Coleman Homing Society. Buy a copy at McBurney's drug store.

Several from Coleman attended the dedication of the war memorial in Lethbridge on Sunday. Lieut.-Gov. Walsh and Bishop Sherman officiated. The weather was so hot that several people were prostrated.

Commercial printing: envelopes, letter heads, statements, bank cheques, etc., can be supplied at The Journal office. Every business needs printed stationery. Telephone 209 and we will gladly call on you.

Alex. Easton, formerly in business in Coleman, and for the past three years with the Granum Trading Co., has taken over the business of that company, and will operate under the name of Easton's Grocery.

A card received from J. C. Cox, formerly pit boss at the International mine, mailed from Toronto June 5, stated he was leaving on June 6 by the "Empress of Britain" for England. He motored from the west to Montreal.

Sunday was a very warm day, and the highway was alive with cars from early morning till late at night. Fortunately there were no serious accidents, only one or two minor cases being reported to the provincial police. Crows Nest lake was visited by quite a number from the Past towns during the day.

A heavy rain on Monday night will help to lessen the danger of forest fires. For two or three days prior to the rain a thick smoke haze had prevailed over the entire area, reported to be caused from forest fires in Montana, according to information from the local forest ranger station, in charge of J. H. Boulton.

When a salesman selling printing as a side line to his particular line solicits you for printing, remember that he spends not a dollar with you for the business he takes away. The Journal office is equipped to fill your requirements in commercial stationery. Counter check books, typewriter supplies, special forms, posters, etc., and local printers spend the money they earn in printing for local people with the people from whom they get the business. Reciprocity in business is good policy, provided you are getting a square deal both ways.

Have you enough Life Insurance?

No matter how large or how small your estate, it will suffer heavy deductions before it reaches your wife or family. Doctors, nurses, hospitals, undertakers, lawyers, etc., not to mention succession duties, if the estate be considerable, will reduce the net amount payable to your heirs by anything from 10% to 25%. Take your pencil and try a simple sum in arithmetic, using an actual case as an example:

	Typical Case	My Case
Total face value of all my life insurance policies	\$5,000	\$
Estimated value of my real estate, securities and other assets	\$2,000	\$
Total	\$7,000	\$
Less 15% as indicated above	\$1,050	\$
Total estate (net)	\$5,950	\$
Invested in good securities at 5% this should yield my family an annual income of	\$297.50	\$

IS IT ENOUGH?

Serious Problems Now Facing Agriculturists Of The West Considered At Ottawa Meeting

Western Canadian agriculture is drifting into peasant proprietorship, the Canadian Political Science Association, in annual meeting at Ottawa, was told by Henry Spencer, M.P., in the discussions following several papers on agricultural problems.

A suggestion that diversified farming for the home market protected by tariffs, as against specialized production for the foreign market, was not received with approval by western economists who spoke. One Manitoba expert pointed out the water shortage, while others dealt with uncertain market conditions. It was stated that mortgage companies were faced with the problem of continuing farmers only way out for some farmers seemed to be through the bankruptcy court.

Mr. Spencer said the only way mixed farming in the west could expand was by guaranteed prices for the products. Butter in the west now 12 cents a pound, and eggs 5 cents a dozen.

Taxation of farm lands was also discussed. The farmer, it was said, paid more than his share of taxes; his wages were lowest of all and the only way out for some farmers seemed to be through the bankruptcy court.

C. G. Coote, M.P., said the only way out was a revision of the monetary system. He questioned whether it was wise to continue the gold standard. The bank might have to be generous enough to reduce interest rates from nine to four per cent.

Prof. Macintosh, of Queen's University, declared the farmers' income would have to be raised and all the economists who took part in the discussion emphasized the need for research in the agricultural industry.

Mr. Coote thought there had perhaps been too much research in production and not enough in seeking to ensure a fair return to the farmer.

"The farmers of Canada are—willingly or unwillingly—providing cheap food for the rest of the country without paying wages to themselves comparable to wages in other industries. The artisan gets over a dollar an hour—the farmer less than 25 cents an hour."

Prof. J. E. Latimer, of Macdonald College, thus informed the gathering. He declared that the farmer's lack of purchasing power and the slowness of collections which rendered the difficulties of the farming business.

The farmer and his family put in overtime, night work, Sunday work but the recompense did not mean more than 22½ cents an hour. The yearly earnings of employees in agriculture amounted to only 55 per cent. of the general average of earnings in manufacturing.

Prof. Lattimer declared, however, that the present depression was not merely a post-war development. Among the factors he held to be involved were: increased commercialization of farming; greater specialization in the industry; greater use of machinery; local organization of the industry and the greater influence of violent fluctuations in the general price level on farming than on other industries.

Prof. R. W. Murchie, of Manitoba Agricultural College, discussed the sociological aspects of the agricultural problem and depicted the prevalence of quick sociologists and rural social uplifters.

Six standard text books on rural sociology, said "Thrill is characteristic of the rural people." Prof. Murchie contended the opportunity to spend was the test of thrift and the farmer had little money.

The fundamental sociological problem at present was the establishment of a truly scientific attitude toward rural social phenomena, he held.

Bert: "Jack, bob down quickly and you will live a second longer."—Kasper, Stockholm.

Something To Be Proud Of

Booker Washington's School For Negroes Has Proved Wonderful Success

It is just half a century since Booker T. Washington opened his new "normal" school in a tumble-down building in Tuskegee, Alabama, with the aid of \$2,000 voted by the Alabama Legislature. He began with thirty pupils. And the ideal he held before him was the establishment of the Negro as a responsible American citizen. Tuskegee has just celebrated this jubilee, and if Mr. Washington could have been on the scene he might well have taken pride in the growth of his foundation and its influence. The two-room schoolhouse has grown to a vast institution of some 132 buildings, with an endowment fund of over seven million dollars, which makes its future absolutely secure. Forty trades are taught. Sixteen hundred pupils are accommodated. And in fifty years Tuskegee has proved to the world that the Negro can be a hard working and responsible citizen, if he is given fairplay and an equal chance.

Would Work In Canada

Unemployment Insurance Advocated By Former Minister Of Labor

Unemployment insurance can be worked out to better advantage in Canada than in any other country, Hon. Peter Heenan, M.P., former minister of labor, declared in addressing an Ottawa service club. "We are already well on the way to adoption of such a scheme," he added.

Under an unemployment insurance scheme, Mr. Heenan asserted, every man participating would have to register, and by extending registration points, all men out of work could register. If positions could be found for them they could be sent to them, if, however, any man did not want a job which had been found for him, he would not be allowed to further participate in the scheme.

352

TODAY'S MODEL IS CHIC! Various points about this charming blouse have been well thought out to give its wearer a youthful appearance.

The neckline is so flattering in deep open "V," softened by pleated frill. Two types of sleeves are provided. The short sleeves gathered into a narrow band are particularly favored by youth.

A snugly fitted yoke secures that important flat slimness through the hips. It's shown in plaided crepe de chine in opal yellow and brown, or suited for town or resort.

Style No. 352 may be had in sizes 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 2½ yards of 39-inch material.

Eyelet batiste, dmitry, lawn, net, shantung and jersey are smartly appropriate.

Price of Pattern 25 cents in stamps or coin (coin is preferred). Was coin carefully.

A Link With The Past

Sole Survivor Of Palliser Expedition Of 1858 Is Dead In Alberta

Peter Erasmus, 97, sole survivor of the Palliser exploration expedition of 1858, probably sole survivor of the historical Red River settlement in Manitoba, which was founded by Lord Selkirk, and one of the province's most notable citizens as a result of his participation in Alberta's early history-making acts, is dead.

The aged man, extremely infirm and nearly blind in his later years, died recently at Whitefish Lake, near Cold Lake.

Oldest employee on the Canadian civil service list, Peter Erasmus was still retained as assistant interpreter at a yearly salary of \$200, in recognition of his work in framing Indian treaties in the early days. He also was an Alberta old-age pensioner. Erasmus was a resident in Alberta since 1855, with the exception of the time spent on the Palliser expedition, which sought and located a southern Alberta pass through the Canadian Rockies to the coast. It is known today as Kicking Horse Pass.

His father was a Dane, who had served in the British army, fought at the battle of Waterloo and emigrated to Canada, entering the service of the Hudson's Bay Company. His mother was a French half-breed and Peter was the fourth of six children and as soon as he was old enough went to a school conducted by the Rev. Mr. West, Anglican minister, who was the first Protestant minister in the settlement.

The Age Of Youth

Great Opportunity Now For Young Men Says Governor-General

"This is the age of youth," the Earl of Beesborough, Governor-General of Canada, smilingly told graduating students of McGill University as he stood on the rostrum at convocation in the robes of a doctor conferred upon him a few minutes before by Vice-Chancellor Sir Arthur Currie.

"One of the most remarkable changes in my own lifetime—and my generation has seen a great many changes—is the marked decrease in the average age of those holding positions of trust, in every walk of life. In the services, in the law, in politics, science and industry, young men and young women can now be found in posts of responsibility that, 30 years ago, were held exclusively by grey-beards.

Model Locomotive Attracts Attention

The scale model engine, shown in the above picture, is an exact replica of one of the Canadian Pacific Railway's "2800" type fast passenger locomotives and attracted considerable attention at the model railway exhibition, recently held in Central Hall, Westminster, London, England. Built for the company, in England, the model is 14 feet long and weighs half a ton. It is constructed to the scale of 2 inches to one foot and is finished in correct C.P.R. colors. The young "engineer" in the picture seems to be enjoying his tenure of office and, doubtless, knows how to run the engine, which is a complete working machine, with all that is necessary to convey a realistic representation of its powerful original.

Crop Yields Count

Correct Methods Of Soil Management Are Essential

"In all branches of farming whether it be stock raising, grain growing, mixed farming, orcharding, or market gardening, the degree of success resulting therefrom will depend primarily on the crop yields obtained. While seasonal factors—rainfall and its distribution, temperature, etc.—have a determinative influence on yield, correct methods of soil management and the presence of available plant food are essential to maximum production," writes Dr. Frank T. Shutt, M.A., D.Sc., in Department of Agriculture bulletin No. 145-N.S. "Manures and Fertilizers—Their Nature, Functions and Application." This bulletin treats concisely with all the important phases of the subject; farm manures, their nature, care and application; green manures, their value and function; commercial fertilizers, their plant food content and economical use; and soil amendments.

Two Ontario Cities Celebrate

Kingston and Hamilton Have Passed Their Eighty-Fifth Birthday

Two of Ontario's finest cities have celebrated the eighty-fifth anniversary of their cityhood. Kingston was incorporated as a city on May 18, 1848; Hamilton on June 9 of the same year, thus being made of Kingston that it is "Ontario's oldest city." In the strict sense of cityhood, this is not the case for Toronto was incorporated as a city on March 6, 1834, and in a few years will be a centenarian. But Kingston is much the older settlement. Although Brule journeyed the Humbler in 1615 and, standing on what is now Toronto soil, was the first white man to view Lake Ontario, there was no trading post on the Toronto site until 1749, when the French established Fort Rouille. But Frontenac established Fort Frontenac at Cataragui (now Kingston) in 1673.

Alberta Place-Names

The first reference to coal in Alberta is contained in a map of Aaron Arrowsmith. It is that of Edgemoor Creek, known today as Rosebud River. Concerning this stream Arrowsmith says "great quantity of coal in this creek."—Geographical Board of Canada.

San Marino is the oldest existing republic. It has had 10 centuries of uninterrupted existence.

Canada Is Credited As The First Nation In Modern History To Take Census Of Inhabitants

Research Is Yielding

Interesting Results

Revenue May Be Derived From Refine Screenings At Grain Elevators

New uses for surpluses of wheat and other grains are being made the subject of an exhaustive survey by the National Research Council of Canada. Two researches initiated are already yielding interesting results. One of these is a study of the refuse screenings, largely weed seeds, which accumulate at the grain elevators at the head of the Great Lakes to the extent of more than 50,000 tons a year. At present these screenings, if marketable at all, fetch almost nothing. The research is already indicating that they could be made to yield products—oil for soap-making, fertilizer and possibly feed—which would make them distinctly valuable.

In the other research a beginning has been made on the problem of finding methods of utilizing straw. The total amount of straw grown in Canada each year aggregates about 50,000,000 tons, most of which is wasted. A careful study of the possibilities of using surplus grain for the manufacture of fuel, alcohol, starch, dextrine, glucose, and other sugars, acids and laquer solvents by means of fermentation, oils, etc., is being made. This includes a study not only of the technical but also of the economic aspects.

Canadian Buffalo For Holland Zoo

Magnificent Pair Have Been Shipped From Wainwright To Rotterdam

A magnificent pair of Canadian buffalo, male and female, from the National Park at Wainwright, Alta., passed through Winnipeg a short time ago by Canadian National Railways freight en route via Montreal to Rotterdam, Holland, where they will be placed on exhibition in the Rotterdam Zoo. Extreme care was necessary in the shipping of these animals on account of their semi-wild condition, and they were loaded in individual crates in which they will be confined until they reach their destination.

Farmers Buy Pullets

"A new factor in the poultry outlook at the present time, as reported by the Poultry Division of the Dominion Live Stock Branch, is the extent to which farmers in many parts of Canada are now buying six, eight and ten week old pullets. With the unprecedented slaughter of laying fowl and pullets, which is still going on all over the Dominion, the demand for replacement stock which will come into production in October and November is increasing.

British Navy Keeps To Oil

Efforts to induce the British Admiralty to assist the coal industry by reverting some of the ships in the navy from oil to coal fuel have failed. The change was voted down at a recent meeting in London, England, of miner M.P.'s and representatives of mining companies. It also was strongly urged that the coal industry should be helped by the development of the processes of distilling oil from coal.

An electrical flip to destroy flies has been invented. That should show them waiters wait!

Perhaps it may be rather an extreme claim that "Canada" should be credited with the distinction of being the first nation in modern history to take a census of its inhabitants, few of whom, at that day, were greatly concerned with the doings of the actual government. But it appears to be undoubted that the French authorities in charge of the affairs of the colony, then known as "New France," for their own information and reasons did, in the year 1668, undertake a systematic registration of the then European inhabitants, each one being recorded by name. The compilation also stated the age, sex, place of residence, occupation and conjugal condition of each person. According to the Brandon Sun, the original is extant in the archives of Paris, a transcript being available at Ottawa. It would be interesting to know just why this "census" was undertaken, certainly it is unlikely that its originator realized just what he had accomplished or how it would be regarded long after he had passed away.

This initial Canadian census, the Sun continues, was repeated several times during the French regime. After its disappearance a series of less elaborate investigations by successive governors took its place. The first registration on the subject was that of the United Provinces, dated 1847. Under it a census of Upper and Lower Canada was taken in 1851 and again in 1861. Censuses of Nova Scotia and New Brunswick were taken in the same years. An account of these and of previous censuses may be found in Volume IV. of the report of the census of 1871, a volume designed to start the new Dominion on its career with a review of all previous statistics relating to its domain. Comprehensive censuses under the act of Confederation have followed every tenth year, namely, in 1881, 1891, 1901, 1911 and 1921.

Prizes For Remounts

To Stimulate Interest In The Breeding Of Horses Of The Right Type

Major the Hon. Robt. Weir, Federal Minister of Agriculture, has authorized the payment of monies totalling \$825 to owners of horses used by Canadian cavalry units during the 1931 training season 56 be distributed as prizes to be awarded on suitability of horses for army remount purposes. Each regiment will be allocated \$25 in prize money to be awarded in the form of a first prize of \$15 and a second of \$10, while a suitable ribbon will designate third placing. The object of these awards is to stimulate interest in the breeding of horses of a type which has been proven generally satisfactory for all-round purposes.

German Method Is Thorough

The latest method of cleaning railway coaches is that used in Germany. The coach is run into a huge airtight cylinder into which is pumped a strong disinfectant gas. The carriage remains in the gas long enough to allow it to penetrate every crack and corner, so that all harmful bacteria are killed.

Valuable Fish By-Products

Of the various by-products of fish, including fish meal, fish oil, fertilizer, herring scales for pearl essence, poultry grit, glue, whalebone, the 1929 production value was \$3,100,000, according to the Fisheries News Bulletin.

Hindu From Manchester

Secretary: "Do you wish to see Abdullah Rajaputra, the great Hindu clairvoyant, madam?" Visitor: "Aye, young man. Tell him I'm his sister from Manchester."

All the honey a bee gathers during its life doesn't sweeten its sting.

Merchant: "Do you know who I am?" Son of Chaffeur: "Yes, you are the man daddy always takes out in his car."—Karikaturen, Oslo.

SUNDAY SCHOOL LESSON

JUNE 14

THE RESURRECTION AND THE ASCENSION

Golden Text: "It is Christ Jesus that died, yes rather, that was raised from the dead, who is at the right hand of God, who also maketh intercession for us."—Romans 8:34.

Lesson: Luke 24.

Devotional Reading: 1 Corinthians 15:50-58.

Explanations and Comments

The Interview On the Way To Emmaus, verses 13-31.—On the day of Christ's resurrection, two of His disciples (not apostles), were on their way to the village of Emmaus, seven and a half miles from Jerusalem. Disappointed and disheartened, they were talking over the sad events of the last few days, when Jesus drew near and walked on with them. But "their eyes were hidden" that they should not know Him. "Hidden" is the archaic form of "hid". They were absorbed in their sorrow; they were not expecting to see Jesus; and Jesus' appearance was evidently changed. Luke 24:37; Mark 16:12; John 20:14, 15; 21:4. Jesus began to question them and to lead them to unburden their troubled hearts. "What communications are these that ye have one with another?" He asked. "Would I like my Lord and Master to overhear all my conversations with friends who go beside me on life's way? If He were to break in suddenly on some of my talks, and say 'What manner of communications are these that ye have one with another?' how ashamed before Him I would sometimes feel! Dare I allow myself, in even an intimate conversation, to utter anything—any bitter word, any untruthful statement, any ungenerous remark—while I am covered me with confusion to think He had overheard? Must I not set a watch upon my lips?"—G. H. Knight.

"Do not Thou alone sojourn in Jerusalem and not know these things that are come to pass there in these days?" they returned in astonishment. "They meant that they knew a stranger must be very much out of it indeed."—Dan Crawford. "What things?" He asked Jesus.

"Eight vital facts they told Him: (1) Of a Jesus the Nazarene, which means, word for word, a Savior of the worst, for 'Nazarene' meant the latter, and Jesus' the former. Then (2) they named Him a Nazarene, and word, for His walk ever squared with his talk. Also (3) all this because it was before Christ came to them all the people afterwards. Now comes (4) His being sentenced to die, and He died, but more that Christ died that they did! (5) there did many a Hebrew hope that it was He who should redeem Israel. Further, (6) they said they saw Him rise from the dead, and (7) that He was alive! Lastly (8) certain of our own company (we did not go) that they did! (9) they said they found the facts fitted to the woman's version."—Dan Crawford.

On approaching Emmaus, Jesus "made as though" He would continue on his way. This was not pretence on His part, for had they not by their entreaties constrained Him to stay. He would have gone on. "Abide with us," they begged; "for it is toward evening, and the day is now far spent." At the evening meal Jesus offered the customary grace before partaking of the food, and then He broke the bread and gave it to them. Then their eyes were opened and they knew Him. Perhaps the familiar words spoken by the familiar voice, or a familiar gesture in the breaking of the bread (verse 35) revealed Him to them. At that moment He vanished out of their sight, leaving them with the rapturous knowledge that they had seen the Risen Christ. And they recalled how their hearts had burned within them as He talked with them on the way.

The Interview Reported To the Disciples, verses 33-55.—They hastened that very hour to Jerusalem and found the eleven disciples and the women who had been with them. They had heard the good news which they had heard: "The Lord is risen indeed, and hath appeared to Simon."

Then the two in their turn told what had happened on the way to Emmaus and how they had recognized Christ as He supped with them and broke the bread.

Unexpected Results. A little London girl was given a long window flower box and some packets of seeds by her uncle and told she might sow them, and have her own garden on the nursery window sill. She was also told to water them well. A few months afterwards her uncle came again to see her and asked, "Well, dear, did you sow your seeds?" "Yes, uncle," said the child. "Did you water them well?" "Yes, uncle, very well." "And did anything come up?" "Yes, uncle, a policeman!"

Canada's Forest Land. According to the Forest Service of the Department of the Interior, commercial forests can be grown on 35,000,000 acres of Canada's domain, and that on 182,000,000 acres the forests are either at present inaccessible or are of value mainly for their ameliorating effect on climate, the control of water and prevention of erosion or their scenic attractions.

Romney Marsh, England, has a population of nearly 3,000, has had no reported cases of drunkenness for 12 years.

Social Inertia Allows Disease To Flourish

Many Children Die Needlessly Health Association Is Told

"There is cause and effect at the bottom of every disease, and we should teach people to make health a matter of good management," said Prof. Roy Fraser in his address before the community Health Association of Greater Toronto at its annual dinner in Hart House.

"If a child dies needlessly, someone tries to soothe the parents' conscience by saying that it was the will of God—that's blasphemy. It never was the will of God that a child should die."

"These things have to happen," people will say. They don't have to happen. When people learn that disease is a result of cause and effect, and not a divine act, then they will have courage to go out and conquer it."

"Medical science has gone a long way, but there is no serum for prostration, and no vaccine for pleuritis. Disease will be with us as long as we have social inertia."

In speaking of health education in the schools, Prof. Fraser stated that if the curriculum was too heavy to take care of it, it should be unrolled to make room for learning something the children have to know. We ought to know as much about our bodies as we do about a carburetor of a car.

"We need a closer co-operation between those who heal and those who teach. The doctor and the nurse should lead, and everyone else follow."

"I have never heard a politician make public health a plank in his platform, and yet the national loss through war, tariffs, financial depression, accidents are heavy, but our economic loss due to disease would top them all."

For communities to argue that they had no concern with the health of their people was, in the speaker's opinion, to argue that only those who had a fire should pay for the fire department, and only those robbed should pay for the cost of bringing criminals to justice.

"We are now on an era of preventive measures in the matter of health," the speaker said.

Honor Memory Of Wolfe

Laurel Wreath Placed On Mural Tablet At Bath, England

The memory of General Wolfe was honored at Bath, England, when Frederick Parker Burden, agent-general for British Columbia, placed a laurel wreath on the mural tablet of the beautiful old Georgian house where Wolfe was living when he received his commission to go to Quebec.

The ceremony was followed by the Royal Empire Society Bath branch luncheon, at which Mr. Burden was chief speaker in place of Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain, who was called to Geneva.

"Isn't your little son sweet? He told me I was pretty."

"Did he? I must take him to an oculist."

THE ADVENTURES OF CAPTAIN JIMMY and his Dog SCOTTY

WHAT CAME BEFORE: Captain Jimmy and his dog Scotty got lost in the darkness, while flying over the Chinese War Zone. They are captured by bandits and separated. Captain Jimmy makes his escape and plans to search for the faithful Scotty.

Yes, sir. Just as I crowded the aid Chinese interpreter into the old freight car, I heard the whistle of a train pursuing him. I saw the bandit's black object came hurtling in and struck me square in the face.

"Scotty!" I yelled. I was untroubled by the sound of the whistle. But there was a great reunion. But there was no time to waste. The bandits were following closely on our trail. Some of them had been waiting for me in the corner of the car were piled a pile of Chinese. I slipped out of the car and ran as fast as I could. I was alone. I was alone. I was alone.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

Suddenly the sound of hoofs rang on the rocky railway siding and a score of bandits leaped up and down the train, peering into the cars. Things were happening. I slipped out of the car and ran as fast as I could. I was alone. I was alone. I was alone.

Something had to be done quickly, however, or the outlaws would return and find me. I slipped out of the car and ran as fast as I could. I was alone. I was alone. I was alone.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

Suddenly, I realized that Jed's brother was behind me. He was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

When I found the train would move along before the bandits caught up, we would be safe. But it was a great relief. The whistle of the train coming the other way had passed.

Panic stricken, the bandits rushed to the car doors to escape. Some jumped out, some were pushed out, others simply fell out. But in the time that it takes to tell it, there was not a bandit on board.

What we feared, gathering ahead as we backed down the track for we dared not go forward in the face of the signals. The engine roared and away we took up the shovel to feed the boiler fire. When the engine had backed out from under the coal and someone held the shovel.

What next. Even the coal was alive with China bandits. "Maybe I'm a bandit," Captain Jimmy said. "Maybe I'm a bandit," Captain Jimmy said. "Maybe I'm a bandit," Captain Jimmy said.

Where had I heard that familiar voice before? I shoved him into the light. His face was like a black mask from the coal dust.

"My Golly! Jed Stone!" I yelled. And so it was. My old friend Jed Stone who I had not seen for many years. Our meeting was one of those old coincidences that you couldn't make happen in a lifetime if you tried to plan it.

He told me a startling story. He had a brother, a brother named Jed. He had a brother, a brother named Jed. He had a brother, a brother named Jed.

He had a brother, a brother named Jed. He had a brother, a brother named Jed. He had a brother, a brother named Jed.

"Dad, what is a boss?"
"A boss, my son, is a man who comes to the office too late when I am early, and too early when I am late."—The Passing Show, London.

WORLD HAPPENINGS BRIEFLY TOLD

Scotland is operating its first plant for the production of motor fuels from shale oils.

Despite low world metal prices, British Columbia took more out of its mines in 1930 than in any previous year.

Five hundred patients were transferred to safety by nurses when the Kaogawa hospital at Tokio was partly destroyed by fire.

Automobiles imported into France last year were valued at about \$13,000,000, an increase of 11 per cent. over 1929.

A cable received by the Department of Agriculture stated that 465 head of cattle of the "Manchester Brigade" met with a sharp market at Birkenhead, England.

The German government has instructed its ambassador in Paris to lodge a strong protest against repeated flights over German territory by French military planes.

Mrs. Charles A. Lindbergh has won the rank of a full-fledged aviator.

The world's export trade for 1930 was about 90 per cent. the size of the 1929 trade.

Representation of the province of British Columbia on the board of railway commissioners will receive consideration when the vacancies on the board are being filled.

Collection of an income tax from the United States firms which sell goods to Canadian customers through any person in Canada, is reported by the Department of Commerce to be causing much concern among those taxed.

Girl Guides Meet

Large Representation Attends Annual Gathering Held This Year In Winnipeg

Nearly every corner of the Dominion of Canada was represented at the annual meeting of the Canadian Council of the Girl Guides' Association held at Winnipeg recently. Fifty delegates attended the inaugural ceremony following which reports, presenting a vivid picture of the Girl Guides' activities, were read.

It was indicated that the movement was rapidly gaining strength. "Girls today are not wild, they are wonderful," Mrs. H. D. Warren, chief commissioner of Girl Guides in Canada, told members of the Women's Canadian Club here.

"I hear many people say that the modern girl is wild," said Mrs. Warren. "She is not. She is honest and speaks her mind openly and frankly. It is that which is charming and genuine. I think the girls of today have in them the making of wonderful citizens."

Point of a dark greenish hue has been found in England to make airplanes nearly invisible when flying against clouds or in the rays of searchlights.

Host: "My mother-in-law nearly laughed herself to death at your jokes. I hope you will come again soon and stay longer."—Hummel, Hamburg.

A Civic Auditorium

Winnipeg Proposes To Erect Structure At Cost Of \$1,500,000

A civic auditorium, with a seating capacity of 9,400 and embracing many special features of interior construction, will be erected in Winnipeg at a cost of \$1,500,000, provided the necessary financial arrangements are completed by the local group sponsoring the project.

The plans call for an imposing building of Manitoba Limestone, 380 feet by 160, and fronting on Memorial Boulevard between St. Mary's Avenue and the present university buildings.

Personal and Local

A thick haze over the Pass on Friday and Saturday last indicated a forest fire in the west.

Take note of Ledieu-Kleyko grocery specials advertised this week. Strawberries 10c a basket.

Mr. and Mrs. C. Huffman have moved into the apartments above Ledieu-Kleyko store.

A party of gypsies travelling in two automobiles arrived from Vancouver on Tuesday, and left on Wednesday for Calgary, planning on attending the stampede. They endeavored to stay here to tell fortunes but the town and provincial police ordered them to move on.

Palace theatre has a special offering for this week-end in the Vitaphone picture "Sailor, Behave!" with famous artists such as Wallace Beery, Chas. King, Olson and Johnson. A comedy that will chase the blues. You'll enjoy it! Tom Sawyer proved a popular hit with the young people last week.

The dance advertised to be held in Coleman hotel dining room will be held instead in the K of P hall on Wednesday, June 24, and a whist drive will be held preceding the dance. Proceeds for Shamrock relief fund.

An attractive window display and an attention compelling advertisement go hand-in-hand. One catches the attention of the passer-by, and the other catches the eye of all who read the newspaper. Plan your merchandising so that you make a tie up between your store display and your advertising. It will well repay you in business and will create general interest.

F. A. Hart, Manager

Mrs. Steve McDonald had as her visitor on Friday, May 29th, Mrs. Jack McDonald of Coleman.—Macleod Gazette.

Bill McGrath was in from Corbin on Sunday, and from his appearance "ye ed." opines that he is satisfied with the Bennett tariff.

Mr. Lawson, manager of Lethbridge branch of Remington Typewriters Limited, called on the local agency, The Journal office, last Saturday.

Rev. A. S. Partington has been a busy man in his spare hours, planting trees and shrubs and improving the surroundings of the rectory.

Miss Hilda Roper, sister of George Roper, of Pathinson Hardware store, is now recovering from a very critical illness at Pincher Creek, where she was a patient in the hospital.

Mrs. Jacqueline Horlach has returned from visiting her parents at Egremont, Alta., and her little son will attend school. She has resumed her duties in the Whitesides' home.

The electric eye has been replaced in the town hall to regulate the hours at which the street lights will be governed. At first it did not regulate in a satisfactory manner, and it is being given another trial.

A surprise party was held at Mrs. Gillespie's last evening in honor of her daughter Janet, who will return on Friday morning to Nelson hospital for duty. Six tables played whist, and prizes were won by Mrs. M. Wilson and Mrs. W. Gate. A handkerchief shower was given Miss Gillespie, the handkerchiefs being pinned in an umbrella, which when opened gave forth a shower.

Long Kam, of Coleman Cafe, returned on Monday from over a year's visit to his home in China. He finds conditions in China much the same as in Canada. He states the rich men have all the money, and the poor people have just sufficient to get along on, while many have not that. He had an interesting time on his travels, and despite the depression, states he enjoyed himself.

People may know who you are, if you are in business, but what's the use of just knowing you? To get a share of their business you must have some better claim on their attention. Why not tell them something of what you have to sell, and make the inducement sufficiently strong that they will come to your store. Do it effectively each week by advertising in The Journal, which goes into the homes.

The census-takers, Mrs. R. M. Dunlop and Mrs. Grant, are proceeding with the work in the town, and have been treated courteously by the majority of the people on whom they called. One instance was reported to the police of insolence and refusal to give the information required, and the offender was quickly brought to time on being warned by the police that if he did not comply he would be taken before the magistrate. Such a display of insolence towards a woman indicates the uncouth type of creature guilty of the offence.

Rev. Fred Antrobus, B.A., Baptist minister at the town of Peace River, son of Mr. and Mrs. Wm. Antrobus, has met with success in his efforts since taking his first ministerial charge after graduating from McMaster University, Toronto. Membership of his church has doubled, and there are five children and the Salvation Army provides services. Capt. and Mrs. Hind, formerly in charge of the Salvation Army in Coleman, were stationed there after leaving Coleman. The July issue of the Canadian Geographic Magazine contains a splendid article with photographs on the Peace River district and its splendid potentialities.
